Nick Hinds

Minneapolis, MN 55414
612-443-3630 nicholas@hinds.ai nicholashinds nicholashinds

Education

University of Minnesota Twin Cities **September 2022 – May 2026**
B.S. in Computer Science & Mathematics *Minneapolis, MN*

- GPA: 3.923/4.000
- Honors: University Honors Program (CSE), Dean's List (all semesters), Pohlad Companies Scholar, UROP Scholar

University of Minnesota Twin Cities **September 2025 – May 2027**
M.S. in Computer Science *Minneapolis, MN*

- GPA: 4.000/4.000

Technical Skills

Programming Languages: Python, Java, C, TypeScript, JavaScript, OCaml, HTML/CSS, LaTeX
Developer Tools: GitHub, VS Code, PyCharm, IntelliJ, Postman, Jira, Figma, Slack, Azure DevOps, Anypoint Studio
Frameworks & Technologies: React, Node.js, NumPy, pandas, matplotlib, PyTorch, Linux, Windows, macOS
Other Skills: Microsoft 365 Suite, Prompt Engineering, AI Tools (ChatGPT, Microsoft Copilot, Codex)

Experience

Ecolab **June 2025 – August 2025**
Enterprise Integration Intern *St. Paul, MN*

- Configured, tested, and documented MuleSoft Process and Experience APIs within an API-led architecture, debugging local deployment, authentication, and environment issues to validate production-ready code.
- Designed and built a database-backed System API from scratch using Anypoint Platform and CloudHub 2.0, including API specification, schema design, deployment, and proxy-based security with rate limiting controls.
- Developed Python automation scripts to performance-test three Master Data Management APIs, analyze response-time trends and server errors, and compile recommendations for follow-up functionality, load, and stress testing.

University of Minnesota Twin Cities **January 2025 – Present**
Undergraduate Teaching Assistant *Minneapolis, MN*

- Teaching Assistant for CSCI 2041: Advanced Programming Principles, supporting 900+ students across three semesters in functional programming concepts and software design.
- Lead grader overseeing assignment creation and publishing, grading distributions, the course Gradescope page, and developing autograder scripts to streamline evaluation and student feedback at scale.
- Designed and implemented a custom Discord bot with automated authentication for UMN students and a private ticketing system to manage course support requests more efficiently.

University of Minnesota Twin Cities **May 2024 – Present**
Undergraduate Research Assistant *Minneapolis, MN*

- Co-authored and presented the paper "Enhancing XAI Interpretation through a Reverse Mapping from Insights to Visualizations," at IEEE VIS 2025 in Vienna, Austria.
- Developed an interactive research prototype using React, TypeScript, and D3 to support SHAP-style explanation analysis with linked annotations and coordinated multi-view visualizations for model interpretation.
- Integrated LLM-powered structured insight extraction, created study walkthrough materials, and contributed to response logging and qualitative analysis for participant feedback.

Projects

Gibberle **September 2024 – December 2024**

- Collaborated with project team to develop an interactive web game where users guess phrases by sounding out gibberish.
- Led the ML subteam, creating and documenting tasks, scheduling team meetings, and managing the project structure.
- Designed and documented an attention-based Seq2Seq grapheme-to-phoneme model in PyTorch, using encoder-decoder layers, attention, and beam search to achieve 92% accuracy in phonetic conversion for game phrase generation.

Extracurriculars

CSE Mentor **September 2023 – Present**

- Mentored four students on course planning, study strategies, university resources, and internship/resume preparation.
